PROFESSIONAL SUMMARY

Digital Product Designer with **8+ years of experience** designing and launching **complex digital experiences** across web and mobile platforms. Proven expertise in **end-to-end product design**—from discovery and research through prototyping and delivery—**using human-centered design, design thinking, AI-assisted, and Agile methodologies**. Strong background in **accessible, inclusive design**, cross-functional collaboration, and data-informed decision-making. Experienced delivering digital products that **improve operational efficiency, drive customer engagement, and support business growth** across public and private sectors.

CORE COMPETENCIES

- End-to-End Product Design (Discovery to Delivery)
- User-Centered & Human-Centered Design
- Design Thinking & Product Discovery
- User Research & Usability Testing
- Data-Informed and AI-Assisted Design & Analytics
- Wireframes, User Flows & Prototypes
- High-Fidelity UI & Design Systems
- Accessibility & Inclusive Design (WCAG, AODA)
- Agile / Scrum / Dual-Track Agile
- Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

TD Bank

Senior UI/UX Designer, May 2024 – present

- Designed and launched customer-facing mobile and responsive web experiences within a large-scale digital ecosystem, collaborating closely with product managers, developers, and business stakeholders.
- Led the integration of the Loyalty Rewards Education Centre into the TD mobile app, increasing customer awareness and engagement with loyalty programs.
- Ideated scalable online joint account application for cross-platform functionality and seamless online workflow.
- Interpreted user research, usability testing, and usage data to validate design decisions and inform iterative improvements.
- Articulated design rationale and trade-offs to align teams around customer needs and business value.

Freelance Designer, June 2023 - present

- Led end-to-end product design for the Brotherize fitness mobile app, from discovery and research through prototyping and delivery.
- Applied design thinking and gamification principles, including rewards systems, to drive user engagement and retention.
- Delivered wireframes, interactive prototypes, and high-fidelity UI designs aligned with Agile development cycles.

Bank of Montreal

Lead Product Designer, May 2022 – June 2023

- Led the Personalization product design stream, driving a 20% increase in product adoption through data-informed UX improvements.

- Partnered with product managers and engineers to influence product roadmaps using insights from A/B testing, analytics, and user research.
- Designed scalable digital experiences supporting customer growth and conversion, achieving a 30% uplift in conversion rates.

BGIS

UX/UI Designer, Apr 2020 – May 2022

- Led the end-to-end iterative design process for enterprise operational platforms, improving task efficiency and navigation ease by 70%.
- Built and maintained a design system, ensuring 100% compliance with WCAG 2.0 AA and AODA accessibility standards.
- Collaborated with cross-functional teams to deliver complex operational business applications used at scale.

EllisDon

Full Stack Developer and Designer, Dec 2018 – Apr 2020

- Collaborated in a cross-functional Agile team to design and build digital microservices and internal tools.
- Contributed to UX and front-end development using React and Redux, strengthening collaboration between design and engineering.
- Ensured alignment between user experience goals, technical constraints, and business needs.

OTC Limited

Senior Architectural Designer, Sept 2012 – May 2017

- Designed human-centered transportation and aviation solutions for large-scale infrastructure projects.
- Applied data analysis, user behavior insights, and service design principles to improve passenger flow, safety, and operational efficiency.
- Key projects include Hong Kong International Airport, Taiwan Taoyuan International Airport, Mexico City CETRAM, and major intermodal stations.

EDUCATION

Lighthouse Labs

Full Stack Web Development Bootcamp

Lawrence Technological University

Master of Architecture

Focus on human-centered design and spatial experience

University of Hong Kong

Master of Science in Urban Planning

Focused on urban design and creating sustainable city solutions.

Ryerson University

Bachelor of Science in Architecture

CERTIFICATIONS & AWARDS

- Accessibility for Ontarians with Disabilities Act (AODA)
- Capital One - *Gift the Code Hackathon* (Winner) – Kids Help Phone Charity League, 2018

TOOLS & TECHNOLOGIES

- Design & Prototyping: Figma, Sketch, Adobe XD, Photoshop, Illustrator
- Development: HTML, CSS, React, Redux
- AI: Claude, Gemini, ChatGPT
- Delivery & Process: Agile, Scrum, Sprint Planning

PROFESSIONAL SKILLS

- Strong communicator able to **articulate design decisions** to technical and business audiences
- Collaborative team player comfortable working across **diverse disciplines and working styles**
- Autonomous, self-directed, and adaptable in **fast-paced, evolving environments**
- Deep commitment to **inclusive, accessible, and customer-focused design**
